

SUMMARY

PENGARUH PERESEPAN ELEKTRONIK TERHADAP MUTU LAYANAN FARMASI DI RUMAH SAKIT "X" JAKARTA BARAT

Created by Lily Widjaya

Subject : MUTU LAYANAN, FARMASI
Subject Alt : SERVICES, FARMACY
Keyword : RUMAH SAKIT; INFORMASI KESEHATAN

Description :

Indonesia through the Ministry of Health has begun implementing Hospital Information System based computer, although it is still growing rapidly but gradually it will be done in several hospitals. One application of Hospital Information Systems including electronic prescription (e - prescription) where the doctor wrote a prescription through the data entry process is automated using software that connects at the hospital pharmacy. Hospital " X " is the new hospital . Has been in operation since December 2010 located in West Jakarta , type B with a number of 200 beds and currently has as many as 130 operational beds , BOR in 2012 by 60 % and the average number of 400 outpatients per day. Since its establishment, the medical records of the patient has been treated using a semi- electronic paper -based medical record / manual , although it has a Hospital Information System which can be used electronically. Frequent delays in preparing the prescription and administration of medication errors to the attention of the great directors of the hospital. This research is an observational analytic cross-sectional study design. This study is a comparative quantitative study , the research aimed to compare the quality of pharmaceutical services to the adoption of electronic prescribing in order to find differences or by testing the hypothesis that the effect can be deduced about the meaning of the data obtained. Target population of this study is the entire recipe before and after implementation of an electronic prescribing in hospitals X.
