Article is quite interesting but it needs major revision

**Comments-**

For revision of your article see the following points

**R1**

Elaborate results including the interpretation of significant data

Text and table format for presenting resulting data or statistical summaries of data is not well-organized and presented.

**R2**

- Equation tools should be used for formula/equation writing.
- Errors: Grammatical and punctuation errors should be rectified. Authors are suggested to use smart tools like 1 checker, ginger, grammarly, white smoke, etc.
- Reference citation- References are to be cited in parentheses/Square bracket like [1] in line with text.
- Ensure citation of references as [1, 2] in case of 2 references and [1-3] in case of more than 2 references. Few other examples include [1, 2, 3-5, 6].
- References: References are out of format. Uniformity must be ensured in all the references following NLM style. It should be made strictly as per Instructions to Authors.
