"LEGAL STUDY OF PENAL MEDIATION POLICY ON CRIMINAL TRAFFIC ACT ON
POLRES SERANG. '**

V Chapter, 106 p.

ABSTRACT

The problem of criminal law in Indonesia is growing, so that various problems require the right solution and understanding of the community in identifying the legal problem solving with the law enforcement apparatus. The criminal law policy in penal mediation in Indonesia's criminal justice system is very much needed especially the traffic function in handling the settlement of traffic accidents cases. This research was conducted in Serang police station to find out how the police policy in solving criminal acts of traffic accident and how the criminal law policy according to traffic law in penal mediation in Serang police station.

This research is with descriptive legal study, with statue approach and historical approach. The data used are secondary data that is accident data related to criminal law policy in penal mediation to criminal acts of traffic accident at Serang police station.

The results of the study show the majority of the number traffic accidents occurred in 2016 as many as 1,201 cases and 864 light casualties were found, and who did not do penal mediation as much as 51%.

From the results of this study suggested the police as investigators and investigators must dare to use the discretion authority.
