This study aims to identify and analyze the implementation of the authority of the Regional Representative Council of the Republic of Indonesia in the supervision function of the implementation of the Hajj, and to know and analyze the obstacles in the implementation of the authority of the Regional Representative Council of the Republic of Indonesia in the function of supervision of the implementation of the Hajj. This research is normative and empirical with primary and secondary data as data source. The data were researched by interviews with resource persons and document studies. Data were analyzed qualitatively. The results of the analysis are presented descriptively. The results of the research indicate, firstly, the implementation of the authority of the Regional Representative Council of the Republic of Indonesia in the function of supervising the implementation of the Hajj has been carried out in accordance with the mandate in Article 22D Paragraph (3) of the 1945 Constitution as well as in Article 256 Sub-Article d of the MD3 Law. Nevertheless, the findings of DPD as stipulated in the form of Decision of DPD is correct, and the decision form issued by DPD must have legal consequences which can be obeyed by the government means that if the government does not obey the decision of DPD means the government ignores the mandate given by the constitution . Secondly, the obstacles in the implementation of the authority of the Regional Representative Council of the Republic of Indonesia in the supervision function of the implementation of the Hajj is no obligation for the Hajj Commission of Indonesia to report the results of the implementation of its duties in writing to the DPD. In addition, the DPD's weak role in the formation of the bill, supervision and budget, so that the role of the DPD can be likened to "helpers" of the House of Representatives in forming the bill. Therefore, it is necessary to create a special regulation related to the regulation of the supervision of the Hajj between the DPD and the DPR, so that there are similarities in the recommendation issued by DPD and DPR to be implemented by the Ministry of Religious Affairs and the Ministry of Healthrent.
