

ABSTRACT

Nani Supatni, 2003-01-029, The Influence of Work Ability, Work Motivation and Work Satisfy against Auditor Survey Employees of General Inspectorate Menpower and Transmigrations Ministry office (Guided by **Husein Umar**).

This study is aimed to know the influence of Work Ability, Work Motivation and Work Satisfy against Auditor Survey employees of General Inspectorate Menpower and Transmigration Ministry office.

The research design which is using in this study are two kinds, the first is using Descriptions design to explain the research variables and the second is using ex-post faction design. Data samples are taking by using questionnaire instrument which has been tested the validities and reliabilities against employees a sum of 98 persons of formerly expectations, there are the whole auditors 117 persons of the total employees population.

The analysis tool which is using in these processed data are the correlation and regression and average statistic and deviation standard that the process may helped by software package SPSS version 11,0.

The result of analysis indicate significance properties between each free variables and influenced variable which are researched i.e: the influence of work ability to the employee, work motivation to the employee, and work safisty to the employee. But about simultaneity regression, the work ability variable is not significance influenced the auditor employees.
