ABSTRACT

Title : Financial Report Assistant (FIRA)
Student Name : Basir Bonawi, Simon PH Hutapea, Wiwin Gusnia, Ira Sita Ningrum
Study Program : Master of Management

The Financial Report Assistant (FIRA) is here to help small entrepreneurs control company finances in real-time, as well as provide financial, tax, and business education through technology, UI/UX displays, and product variations. PT. Financial Report establishes cooperative relationship agreements with expertise for consumers who need business insight and builds the FIRA Community as a means of discussion or relations. The product offered in this business is SAAS, namely Software as Service, a provider of accounting application services. The process of recruiting FIRA employees implements the Applicant Tracking System and continues to conduct Aagr training in line with advances in science and technology. The results of the calculation of the financial plan show that up to the third year, the company has a minus profitability ratio value so the company is said to have suffered a loss, but in the fourth year the company has been in a profit position (profit). Efforts have been made by the company to support the progress of business operations by upgrading technology and recruiting human resources who are experts in their fields to be responsible for technology, and company database security. Risk management can be applied to minimize risks in business processes in achieving company goals.
