

ACKNOWLEDGMENTS

I would like to express my appreciation to DR. Erman Munzir, DR. Ir. Son Damar for their invaluable advisement granted during this paper preparation. I also extend my thanks to DR. Indaryati Motik Adisuryo, Dean, and Lance Woodworth M.Ed., Vice President of the Department of Business Administration of IEU, Institute of Management, Jakarta for providing a guidance to write this final paper.

I would like to take this opportunity to thank my beloved father and mother, to Lili Soemantri, and my dear Robert Pekkanen who support me to finish this paper.

And to all teachers from IEU, colleagues, friends and parties who contributed datas and informations for this paper, or help in every way, I express my sincere gratitude.

I hope this paper will be useful for future reference and I would be pleased if I may be of assistance in the interpretation or applications of our finding or in the furtherance of this study.
