Safe Maternity And Pediatric Nursing Care

Author : Luanne Linnard-Palmer,
Gloria Haile Coats
No. Class : 618.92 LIN s
Location : Jakarta

Description:

Safe Maternity Pediatric Nursing Care, 2nd Edition. Online Resources, and Davis Edge work together to create an interactive learning experience that teaches students to think critically and make the best patient care decisions.

The text, written specifically for LPNs/LVNs, provides the comprehensive nursing knowledge they need to understand in this key course. Online Resources equip instructors with the lesson plans, teaching resources, and activities to create an active classroom environment where students can apply what they are learning. Davis Edge online quizzing tracks student progress assesses their knowledge prepares students for classroom exams and the NCLEX and provides real time analytics to identify their weak concepts and topic areas.

Concept For Nursing Practice

Author : Jean Foret Giddens
No. Class : 610.730 1 GID c
Location : Jakarta

Description:

Learn the core concepts of nursing care and apply them to the clinical setting! Concepts for Nursing Practice, 3rd Edition uses a simplified, intuitive approach to describe 57 important concepts relating to all areas of nursing practice. For easier understanding, this book also makes connections among related concepts and links you to other nursing textbooks. Exemplars for each concept provide useful examples and models, showing how concepts are successfully applied to practice. New to this edition are updated research evidence and a new Population Health concept. Written by conceptual learning expert Jean Giddens, this text will help you build clinical reasoning skills and prepare confidently for almost any clinical nursing situation.

Oxford Textbook Of Palliative Nursing

Author : Betty Rolling Ferrell
No. Class : 616.029 FER o
Location : Jakarta

Description:

The Oxford Textbook of Palliative Nursing remains the most comprehensive treatise on the art and science of palliative care nursing available. Dr. Betty Rolling Ferrell and Dr. Judith A. Paice have invited 162 nursing experts to contribute 76 chapters addressing the physical, psychological, social, and spiritual needs pertinent to the successful palliative care team. Organized within 7 Sections, this new edition covers the gamut of principles of care: from the time of initial diagnosis of a serious illness to the end of a patients life and beyond.

This fifth edition features several new chapters, including chapters on advance care planning, organ donation, self-care, global palliative care, and the ethos of palliative nursing. Each chapter is rich with tables and figures, case examples for improved learning, and a strong evidence-based practice to support the highest quality of care. The book offers a valuable and practical resource for students and clinicians across all settings of care. The content is relevant for specialty hospice agencies and palliative care programs, as well as generalist knowledge for schools of nursing, oncology, critical care, and pediatric. Developed with the intention of emphasizing the need to extend palliative care beyond the specialty to be integrated in all settings and by all clinicians caring for the seriously ill, this new edition will continue to serve as the cornerstone of palliative care education.
