Psychology of personality : Viewpoints, research, and applications

Pengarang: Bernardo J. Carducci
Klasifikasi : 155.2 CAR p

Description : Psychology of Personality: Viewpoints, Research, and Applications introduces students to many important figures in the field, including Freud, Jung, Adler, Horney, Erikson, Maslow, Allport, Cattell, Bandura, Mischel, and others. The book not only covers classic issues and research in personality, but also looks at genetics and personality, neurological considerations in personality, the evolutionary perspective, the Big Five model of personality, and other contemporary issues.

The 3rd Edition reflects significant changes in the field but retains much of the information and special features that made it a textbook from which instructors found it easy to teach and students found it easy to learn.

Psychological testing and assesment: an introduction to tests and measurement 8th edition

Pengarang: Ronald Jay Cohen
Klasifikasi : 370.287 COH p

Description: *Psychological Testing and Assessment* presents students with a solid grounding in psychometrics and the world of testing and assessment. The book distinguishes itself through its logical organization, readable text, and many pedagogical aids, such as the “Meet an Assessment Professional” feature in every chapter which highlights the works of people such as Dr. Stephen Finn, architect of therapeutic assessment. Now in its eighth edition, this text has consistently won enthusiastic reviews not only for its balance of breadth and depth of coverage, but for content that brings a human face to the assessment enterprise.

Clinical psychology : science, practice, and culture

Pengarang : Andrew M. pomerantz
Klasifikasi : 616.89 POM c

Description: Featuring fully integrated coverage of the **new DSM-5**, this updated edition offers comprehensive coverage of the subfields of clinical psychology, including clinical assessment, psychotherapy, ethical and professional issues, current controversies, and specialized topics. Up-to-date references, including many from DSM-5 in 2012 and 2013, are featured.

Through the creative use of metaphor, the author connects new concepts with concepts readers already know, making this an accessible text for all readers. In addition, the book provides balanced coverage of multiple clinical perspectives, a wide variety of clinical examples, and a unique focus on ethics and cultural diversity.

Procrastination and task avoidance : theory, research, and treatment

Author : J. Johnson Ferrari

No. Class : 155.232 FER p

Description: Procrastination is a fascinating, highly complex human phenomenon for which the time has come for systematic theoretical and therapeutic effort. The present volume reflects this effort. It was a labor of love to read this scholarly, timely book-the first of its kind on the topic. It was especially encouraging to find that its authors are remarkably free of the phenomenon they have been investigating. One might have expected the opposite. It has often been argued that people select topics that trouble them and come to understand their problems better by studying or treating them in others.
