

Quality, Health, Safety, Security and Environmental (QHSSE) Policy

Everyone working for PT GE-TPP, including contractors, are responsible for excellent QHSSE performance and practices. Our QHSSE goal is simply stated : "no incident, no pollution, customer satisfaction and continuous improvement."

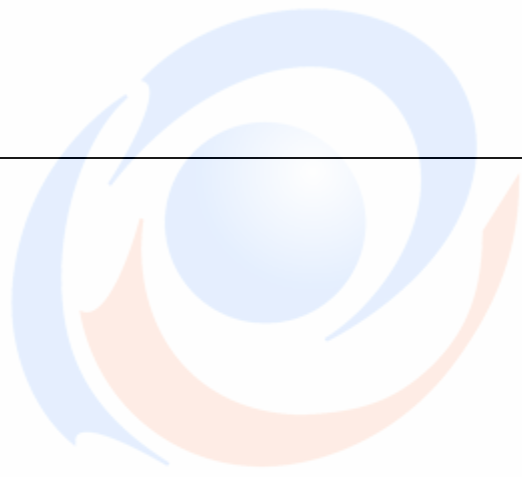

The foundations of the PT GE-TPP's business processes compliance with regulations and standards, continuous risk reduction programs, managing contracted work, pollution prevention, empowerment of positive health, safety, security, and environmental culture and QHSSE continuous improvement towards and advanced competitiveness business.

To meet our commitments, we will implement the sustainability management system by :

- Setting the best achievable operational standards, implementing proven best practices and setting measurable targets;
- Carrying out processes changes and working cultures through continuous improvement programs, standardization management, knowledge management and quality management assessment to satisfy the stakeholders;
- Implementing Occupational Health and Industrial Hygiene management system through Fitness for Work and Health Surveillance programs and prohibiting the consumption of alcohol and drugs;
- Implementing safety management system through Control of Work (CoW), Contractor HSSE Management System, support the halting of any unsafe acts and conditions and Emergency Response Plans;
- Implementing security management system
- Implementing environmental and energy management system
- Investigating any incidents to assure proactive prevention of potentially recurring events;
- Implementing management review and continuous improvement
- Working with our regulators, business partners, customers, suppliers, competitors and stakeholders to increase our industry standards.

This QHSSE Policy is now everyone's responsibility, as members of GE-TPP TEAM, to ensure the success of QHSSE excellence performance.
