# DAFTAR ISI

KATA PENGANTAR ................................................................................................................. ii

LEMBAR PENGESAHAN LAPORAN KERJA PRAKTEK ................................................................. iv

DAFTAR ISI .............................................................................................................................. v

DAFTAR GAMBAR ....................................................................................................................... viii

DAFTAR TABEL .......................................................................................................................... ix

BAB I PENDAHULUAN ............................................................................................................ 1

1.1 Latar Belakang .................................................................................................................. 1

1.2 Identifikasi Masalah ......................................................................................................... 2

1.3 Maksud dan Tujuan Praktek .......................................................................................... 2

1.3.1 Maksud Kerja Praktek .............................................................................................. 2

1.3.2 Tujuan Kerja Praktek .............................................................................................. 2

1.4 Batasan Masalah .............................................................................................................. 2

1.5 Manfaat Kerja Praktek ................................................................................................... 3

1.6 Metodeologi Penulisan .................................................................................................. 3

BAB II LANDASAN TEORI ..................................................................................................... 4

2.1 Teori – Teori Khusus ...................................................................................................... 4

2.1.1 Good Corporate Governance (GCG) ........................................................................ 4

2.1.2 Perancangan .............................................................................................................. 4

2.1.3 Pelanggaran ............................................................................................................... 5

2.1.4 Whistle Blowing ....................................................................................................... 5

2.2 Teori – Teori Umum ...................................................................................................... 6

2.2.1 Rapid Application Development (RAD) .................................................................... 6

2.2.2 Unified Modeling Language (UML) .......................................................................... 7

2.2.3 Use Case Diagram ................................................................................................... 7

2.2.4 Activity Diagram ...................................................................................................... 9

2.2.5 Entity Relationship Diagram (ERD) ....................................................................... 10

BAB III GAMBARAN UMUM PERUSHAAN ........................................................................ 11

3.1 Gambaran Umum .......................................................................................................... 11
3.2 Visi & Misi ........................................................................................................11
3.3 Tata Nilai ........................................................................................................11
3.4 Logo Perusahaan ...........................................................................................12
3.5 Struktur Perusahaan .....................................................................................12
  3.5.1 Struktur Umum Perum Perhutani .............................................................12
  3.5.2 Struktur Divisi Informasi Teknologi ........................................................13

BAB IV HASIL DAN PEMBAHASAN ......................................................................14
4.1 Metode Pelaksanaan .......................................................................................14
  4.1.1 Tempat Kerja Praktek .............................................................................14
  4.1.2 Waktu Kerja Praktik .............................................................................14
4.2 Proses Bisnis Yang Sedang Berjalan ............................................................14
4.3 Logo & Banner Whistle Blowing .................................................................15
  4.3.1 Logo Whistle Blowing System Perum Perhutani .................................15
  4.3.2 Banner Whistle Blowing System Perum Perhutani .............................15
4.4 Proses Bisnis Yang Diusulkan ......................................................................16
4.5 Struktur Divisi Informasi Teknologi Yang Diusulkan ...............................17
4.6 Use Case Diagram Whistle Blowing System Yang Diusulkan ..................17
4.7 Activity Diagram Whistle Blowing System Yang Diusulkan .....................18
  4.7.1 Activity Diagram Input & Upload Bukti Pengaduan ...............................18
  4.7.2 Activity Diagram Melihat Status Pengaduan .........................................19
  4.7.3 Activity Diagram Melihat Riwayat Pengaduan ......................................20
  4.7.4 Activity Diagram Informasi Pengaduan ...............................................20
  4.7.5 Activity Diagram Verifikasi Pengaduan ...............................................21
  4.7.6 Activity Diagram Membuat Laporan ....................................................22
  4.7.7 Activity Diagram Konfirmasi Status Laporan Pengaduan ...................23
4.8 Entity Relationship Diagram (ERD) Whistle Blowing System .................24
4.9 Rancangan User Interface Sistem Yang Diusulkan ....................................25
  4.9.1 Tampilan User Interface Input & Upload Bukti Pengaduan .................25
  4.9.2 Tampilan User Interface Melihat Status Pengaduan ............................26
  4.9.3 Tampilan User Interface Melihat Riwayat Pengaduan .........................27
4.9.4 Tampilan User Interface Melihat Informasi Pengaduan ........................................28
4.9.5 Tampilan User Interface Admin Verifikasi Pengaduan ........................................30
4.9.6 Tampilan User Interface Admin Konfirmasi Status Laporan Pengaduan ........30
4.9.7 Tampilan User Interface Admin Membuat Laporan ........................................31

4.10 Kategori Pelanggaran Yang dapat Dilaporakan .........................................................31
4.11 Keterbatasan Rancangan .............................................................................................32
4.12 Evaluasi Rancangan ....................................................................................................33
4.13 System Usability Scale .................................................................................................33

BAB V PENUTUP ..............................................................................................................35

5.1 Kesimpulan ..................................................................................................................35
5.2 Saran ............................................................................................................................35
