

ABSTRAK

RIZKY ANANDA, Analisis Pengaruh *Work Role Stressors* Terhadap *Turnover Intention Generation Y* Melalui *Job Satisfaction* Sebagai Variabel *Intervening*. (Dibimbing oleh Abdurahman)

Penelitian ini bertujuan untuk mengetahui pengaruh Work Role Stressors terhadap Turnover Intention melalui job satisfaction pada karyawan PT.Calindo Damai Sejahtera Abadi dengan karakteristik Generasi Y yang selama ini dianggap sebagai generasi yang tidak loyal. Penelitian ini menggunakan analisis jalur yang memiliki jumlah populasi sebanyak 723 orang karyawan generasi y dengan penentuan sampel menggunakan metode Slovin yang menjadikan angka sample sebanyak 88 responden.

Hasil dari penelitian ini dengan menggunakan analisis jalur menunjukkan bahwa tidak terdapat pengaruh antara work role stressors terhadap Job Satisfaction, terdapat pengaruh dengan arah hubungan positif antara work role stressors terhadap turnover intention dan terdapat pengaruh antara job satisfaction terhadap turnover intention dengan arah hubungan negatif. Serta pengaruh work role stressors terhadap turnover intention lebih besar dibandingkan dengan work role stressors terhadap turnover intention yang melalui job satisfaction.

Kata Kunci : Faktor Stres kerja, Kepuasan Kerja, Intensitas Pergantian Karyawan dan Genrasi Y
