

ABSTRACT

Seviana Widia Putri. *Effect of Dividend Policy, Leverage, Company Size, and Managerial Ownership to the Value of Company of Empirical Study on Go Public Companies Listed on Indonesian Stock Exchange for 2012-2016 Period. (Guided by Sri Handayani, SE, MM, M.Ak, CPMA).*

This study aims to find the effect of Dividend Policy, Leverage, Company Size, and Managerial Ownership to the Value of Company. The Company value in the proxy using Price to Book Value (PBV) where the stock price of a company is divided by book value per share. Dividend Policy is measured by Dividend Payout Ratio (DPR). Leverage is measured by Debt to Total Asset Ratio (DAR). Company Size is measured by Total Sales of the Company. Managerial Ownership is measured by Total Ownership of Shares by Management.

Object Studied were 15 public companies listed in Indonesia Stock Exchange during the period of study between 2012 until 2016 by using purposive sampling method. The analysis method used is multiple linear regression.

The results of this study were obtained based on simultaneous test shows that Dividend Policy, Leverage, Company Size, and Managerial Ownership simultaneously have a significant effect on the Company Value. Based on the partial test shows Leverage, Company Size, and Managerial Ownership has a significant effect on the Company Value, while the Dividend Policy has no significant effect on the Company Value.

Keywords: Dividend Policy, Leverage, Company Size, Managerial Ownership, the Value of Company
