ABSTRACT

Implementation of nursing care is the nurse's responsibility to its clients through the provision of nursing care based on the standard. Based on preliminary research authors also interviewed 10 nurses in the inpatient Royal Taruma hospital applying the method of Professional Nursing Practice Model Team obtained the results of all respondents said not yet to pre conference and post conference routine. This study aims to determine the relationship of the implementation of the pre conference and post conference with the provision of nursing care in the inpatient unit in Royal Taruma Hospital Jakarta. This study uses correlational design diskriptik analytic cross sectional approach. Test used by chi-square correlation. Samples were nurse in 6 inpatient Royal Taruma Hospital as many as 56 respondents, the research carried out during the second week of December 2015. The results can be most respondents in their late teens is as much as 45 respondents (80.4%), higher education Diploma of Nursing as much as 45 respondents (80.4%), female gender as much as 56 respondents (100.0%), length of less than 3 years of 50 respondents (89.3%), the majority of respondents to follow the implementation of the pre conference and post conference in both categories by 30 respondents (53.6%), most respondents provide nursing care in good category were 41 respondents (73.2%). Statistical test results obtained chi-square p value = 0.000 ($\alpha < 0.05$), which means there is a significant correlation between the implementation of the pre conference and post conference with nursing care in the inpatient Royal Taruma Hospital Jakarta, With the value of odds ratio 95% CI 31,500 who were in the range 5,997-165,465 which means there is a strong relationship between the implementation of the *pre conference* and *post conference* on the provision of nersing care in the inpatient. The results of this study are expected to be used as input for the institutions Royal Taruma Hospital to improve supervision in the implementation of the pre conference and post conference nursing.
