Report of field practice (PKL) aims to determine how the role of reporter in the search for and gather the news, especially soft news in the news program "Halo Kampus", CTV Banten.

This report describes how the role of reporter work to make soft news in the real field. "Halo Kampus" is a news program about the lives of the youth, especially students, then the theme or topic appointed was always presents the events around campus such as the performing arts or exhibition. In addition to campus events, "Halo Kampus" also raised the existence of communities and lifestyles the young (trends) that are popular among teenagers. Besides talking about the reporting, the report also includes a review theories related to the field I'm working on CTV Banten. Writer also include advice which if can be useful for the aspiring journalist who will do practical work.

Experience and knowledge about the world of journalism that I got during practical work for the past two months is a valuable addition to me. It is hoped that these addition, can be distributed to the academics or professionals that may ultimately be the additional information for them.
