Nama : Andrey Irawan Simbolon
Program Studi : Kesehatan Masyarakat
Judul : Analisis Identifikasi Bahaya dan Risiko pada Tahapan Skoping pada Pekerja di Bagian Klaim PT. Asuransi Multi Artha Guna Jakarta Tahun 2018

PT Asuransi Multi Artha Guna Jakarta merupakan perusahaan swasta yang bergerak di bidang jasa keuangan yang salah satu kantornya berada di wilayah Jakarta dimana dalam kegiatan operasional sehari-harinya, para pekerjanya banyak melakukan pekerjaan di belakang meja dalam waktu yang cukup lama dan terus menerus. Berdasarkan hasil wawancara dan observasi terhadap kegiatan kerja ditemukan potensi bahaya dan risiko kesehatan sehingga diperlukan suatu penelitian untuk mengidentifikasi potensi bahaya dan risiko kesehatan terhadap pekerja.

Penelitian ini membahas tentang gambaran potensi bahaya dan risiko kesehatan pada tahapan kegiatan kerja di bagian klaim PT. Asuransi Multi Artha Guna Jakarta Tahun 2018. Penelitian ini menggunakan metode kualitatif berdasarkan teori *Health Risk Assessment (Scoping)* dan teori manajemen risiko AS/NZS 4360:2004.

Hasil penelitian didapatkan ada 5 jenis potensi bahaya dan 5 jenis risiko kesehatan yang berbeda di dalam 7 tahapan kegiatan kerja di bagian klaim. Untuk itu diperlukan suatu manajemen risiko dalam upaya pengendalian risiko kesehatan tersebut terhadap para pekerjanya.

Kata Kunci : identifikasi bahaya dan risiko, AS/NZS 4360:2004, manajemen risiko.

ABSTRACT

Name : Andrey Irawan Simbolon
Study Program: Public Health
Title : Hazard and Risk Identification Analysis in The Stages of Scoping on Workers in The Claim Section of PT. Asuransi Multi Artha Guna Jakarta in 2018

PT Multi Artha Guna Insurance Jakarta is a private company engaged in financial services in which one of its offices is in the Jakarta area where in its daily operational activities, many workers do work behind the desk for a long time and continuously. Based on the results of interviews and observations of work activities found potential hazards and health risks so that a study is needed to identify potential hazards and health risks to workers.

This study discusses the description of potential hazards and health risks at the stages of work activities in the claim section of PT. Multi Artha Guna Jakarta Insurance in 2018. This study uses qualitative methods based on the theory of Health Risk Assessment (Scoping) and risk management theory AS / NZS 4360: 2004.

The results showed that there were 5 types of potential hazards and 5 different types of health risks in the 7 stages of work activities in the claims section. For this reason, a risk management is needed in an effort to control these health risks to the workers.

Key Words : hazard and risk identification, AS/NZS 4360:2004, risk management.
