Title : Analysis of the Role of K3 Units in K3 Implementation in the West Java Network Project Implementation Unit (UPP JJBB 2) in 2018

K3 Units are administrators or representatives of workers responsible for occupational safety and health who have roles in planning, supervision and reporting. The purpose of this study was to analyze the role of K3 Unit in OSH Implementation in the West Java Network Implementation Unit (UPP JJBB 2). This research is a descriptive study with a qualitative analysis approach. This study involved 4 informants consisting of key informants, main informants, and supporting informants. Data collection is done by in-depth interviews, document review, and observation. The results of this study are the UPP JJBB K3 Unit 2 in the planning variable is that it does not play a role in risk management, but still plays a role in running the K3 program. K3 Unit reporting plays a role in making routine internal reports once a month.
