Title : Analysis of The Implementation of Health Promotion in The Installation of  
Community Mental Health Soeharto Heerdjan Jakarta Mental Hospital in  
2018

This study discusses the analysis of the implementation of Health Promotion in the installation of Community Mental Health Soeharto Heerdjan Jakarta Mental Hospital in 2018 which has not been well applied. Research refers to the standard document of Health Promotion at the Hospital by the World Health Organization (WHO), using qualitative analysis. The purpose of this study was to analyze the implementation of Health Promotion in Community Mental Health Installation in terms of management policy aspect, patient assessment aspect, aspect of intervention and patient information, aspect of providing a healthy work environment, and aspect of continuation and collaboration. The results of this study are that the implementation of Health Promotion in Community Mental Health installation from the five aspects of the assessment in general has gone quite well, although there are still some obstacles. The results of this study can be the basis for consideration of the implementation of the Health Promotion program in the installation of Community Mental Health of Soeharto Heerdjan Jakarta Mental Hospital in 2018.
