**STUDY PROGRAM** : *D-III MEDICAL RECORD AND HEALTH INFORMATION.*

The Medical Records and Health Information (RMIK) study program at Esa Unggul University has a commitment to form professional staff in the collection, analysis and dissemination of health information whose scope of users includes administrators, managers, health service providers (providers). RMIK Esa Unggul university produces graduates who are able to produce innovative works in supporting the quality of health information services. This research method is a descriptive study, with a questionnaire collection technique that contains questions that are shown to students of the Medical Record and Health Information study program at Esa Unggul University, especially the 2016 class of 65 students. In conducting research on students of the Medical Records and Health Information Study Program at Esa Unggul University in the 2016 class entitled "Overview of Student Motivation of Medical Records and Health Information Study Programs at the Superior Esa University" it can be concluded that: Based on the results of the questionnaire distributed by the writer to the students of the program Study of Medical Records and Health Information at Esa Unggul University 2016 class, that the authors found Extrinsic Dimension (High Dimension) as much as 78.46% where students choose questions If I can, I want to get better grades in this class than most students the other. This makes students have a high sense of enthusiasm and are able to compete with friends in their class. Based on the results of the questionnaire distributed by the author to students of the Medical Record and Health Information study program at Esa Unggul University 2016, the authors found Dimensions of Controlling Learning (Medium Dimension) as much as 18.46% in which students chose the question This is my own fault if I did not study the material in this lecture. That is, students want to admit mistakes in themselves which can lead to failure in lectures. That is, students have a brave spirit to try to learn new things with optimism and confidence.
