DAFTAR GAMBAR

Gambar 2.1. Pola Data Peramalan ................................................................. 10
Gambar 2.2. Input Output MRP ................................................................. 19
Gambar 3.1. Diagram alir penelitian ............................................................. 25
Gambar 4.1. PT. KKM .............................................................................. 26
Gambar 4.2. Bagan Struktur Organisasi ....................................................... 27
Gambar 4.3. Dish Dryer ............................................................................ 28
Gambar 4.4. Hanger ................................................................................ 28
Gambar 4.5. Ember .................................................................................. 29
Gambar 4.6. Baskom ............................................................................... 29
Gambar 4.7. Bijih Plastik ....................................................................... 30
Gambar 4.8. Masterbatch ........................................................................ 30
Gambar 4.9. Proses Mixing Bijih Plastik ................................................... 30
Gambar 4.10. Hasil Produksi Injection Molding ........................................ 31
Gambar 4.11. Proses Wrap dan Packing Produk ......................................... 31
Gambar 4.12. Peta Proses Operasi .............................................................. 32
Gambar 4.13. Bill Of Material Hanger Plastik BK ..................................... 33
Gambar 4.15. Grafik Peramalan Metode Linier Trend ............................... 38
Gambar 4.16. Grafik Peramalan Metode Quadratic Trend ......................... 41
Gambar 4.17. Grafik Peramalan Metode DES α = 0,1 ............................... 44
Gambar 4.18. Grafik Peramalan Metode DES α = 0,5 ............................... 47
Gambar 4.19. Grafik Peramalan Metode DES α = 0,9 ............................... 50
Gambar 4.20. Grafik Tracking Signal Metode Quadratic Trend ................. 55
Gambar 4.21. Grafik Output RCCP ............................................................. 61
Gambar 4.22. Grafik Kuantitas Pemesanan Polypropylene LFL ................ 64
Gambar 4.23. Grafik Kuantitas Pemesanan Masterbatch LFL ..................... 64
Gambar 4.24. Grafik Kuantitas Pemesanan Polypropylene EOQ ............... 66
Gambar 4.25. Grafik Kuantitas Pemesanan Masterbatch EOQ ................... 67
Gambar 4.26. Grafik Kuantitas Pemesanan Polypropylene FPR ................ 68
Gambar 4.27. Grafik Kuantitas Pemesanan Masterbatch FPR .................... 69
