Sel, 21 Jul 13:53

Dear Mr. Ray

As discussed previously in the Instagram message, I am intended to humbly ask you as one of the key informants for my undergraduate thesis. The information about my thesis is as follow :

- Topic : Group Tour
- Title : Pengembangan Aplikasi Group Tour Monitoring menggunakan metode User-centered Design
- Problem : tour participant separated from the group
- Purpose : Help tour leader to monitor group tour participants through group tour monitoring application

Herewith this email, I enclose the question list. This data collection aims to know about both group tours and its monitoring system from the perspective of the user or in this context, tour leader. I am looking forward for the positive response.

Best regards,
Lharas
