ACKNOWLEDGMENTS

Praise, I pray to Allah SWT, because of His blessings and grace, Author can complete a thesis entitled "*Developing a daily worship monitoring application for Muslims in cross-platform mobile application using flutter framework.*" The writing of this thesis is carried out to fulfill one of the requirements to obtain an Applied Bachelor's degree at Nanjing Xiaozhuang University and Esa Unggul University. The preparation of this thesis can run smoothly, regardless of guidance and support from various parties. For this reason, the author would like to thank all those who have helped, especially:

1. The Author's parents and family who have provided material and moral assistance and support.

2. Professor. Chen Wei Wei (陈维维) and Mr. Li Qing（李青）as my supervisors who has provided time and thought to guide the Author in completing each stage of the thesis work.

3. Author lecturer both Nanjing Xiaozhuang University and Esa Unggul University, who is not mentioned one by one however not decrease respect from the Author. Say Thank to Lecturer for giving the author a critical lesson and knowledge that is very useful for the author in the future.

4. Author's Classmate IT2018, who has been author partners and friends who have helped a lot in supporting complement this thesis process.

Hopefully, God always blesses those mentioned above and all their sacrifice. Finally, the authors hope that this thesis can be useful for all parties
