

**ABSTRAK**

Judul	: Analisa Teknikal Pembuatan Trading Plan Keputusan Investasi Pada 3 Saham Perbankan BUMN Yang Terdaftar Pada Indeks LQ45 Tahun 2014 - 2019
Nama	: Johan Leonardo
Program Studi	: Akuntansi

Tujuan dari penelitian ini adalah untuk memperoleh bukti empiris tentang pengaruh *candlestick*, *level support* dan *level resistance*, *trendline*, dan *Moving Average Convergence Divergence* (MACD) terhadap pengambilan keputusan investasi. Sampel dalam penelitian ini adalah perusahaan perbankan yang terdaftar di Bursa Efek Indonesia selama periode 2014–2019. Sumber data penelitian ini berasal dari *software pro trader*. Penelitian ini menggunakan pendekatan kualitatif dengan metode analisis deskriptif. Hasil dalam penelitian ini menemukan bahwa *candlestick*, *level support* dan *level resistance*, *trendline*, dan *Moving Average Convergence Divergence* (MACD) berpengaruh terhadap pengambilan keputusan investasi. *Candlestick* berpengaruh terhadap keputusan investasi, *level support* dan *level resistance* berpengaruh terhadap pengambilan keputusan investasi, *trendline* berpengaruh terhadap pengambilan keputusan investasi, dan *Moving Average Convergence Divergence* (MACD) berpengaruh terhadap pengambilan keputusan investasi.

**Kata Kunci :** *Keputusan Pengambilan Investasi, Candlestick, Level Support dan Level Resistance, Trendline, Moving Average Convergence Divergence (MACD)*

***ABSTRACT***

<i>Title</i>	: <i>Technical Analysis of Investment Decisions making trading plan on 3 BUMN Banking Shares that are listed on (LQ45) Index for 2014 - 2019</i>
<i>Name</i>	: <i>Johan Leonardo</i>
<i>Study Program</i>	: <i>Accounting</i>

*This study aims to analyze the effect of candlestick, level support and level resistance, trendline, and Moving Average Convergence Divergence (MACD) on making decisions of investment. The sample in this study were banking companies listed on the Indonesia Stock Exchange during the 2014–2019 period. The data source of this research comes from pro trader software. This research uses a qualitative approach with descriptive analysis method. The results in this study found that candlesticks, support and resistance levels, trendlines, and the Moving Average Convergence Divergence (MACD) had an effect on investment decision making. Candlesticks affect investment decisions, support levels and resistance levels affect investment decision making, trendlines affect investment decision making, and Moving Average Convergence Divergence (MACD) affects investment decision making.*

***Keyword : decisions of investment, candlestick, level support and level resistance, trendline, Moving Average Convergence Divergence (MACD)***
