

ACKNOWLEDGEMENT

All praises belonging to God, Allah SWT. For all grace and His guidance so that I can finish this thesis well in accordance with the planned time. The title of this thesis is “Developing Of Muslim Restaurant And Mosque Finder On Android Devices By Using Global Positioning System (GPS) In The City Of Nanjing”.

The purpose of writing this thesis is to complement one of academic requirements for each student at the faculty of computer science both in Nanjing Xiaozhuang University and Esa Unggul University for complete the degree program.

In the writing of this thesis, the author would like to thank the various parties that have given guidance and support in writing this thesis, because without their support the writing of this thesis will not be completed. For that, the author would say thank you so much to:

1. To Esa Unggul University and Nanjing Xiaozhuang University who has given me the opportunity to study and gain knowledge for my future.
2. To Mrs. Professor Chen Wei Wei (陈维维) and Mr. Bambang, S. Kom, M. Kom as my advisor. I am very fortune have two advisor who always provide guidance, support, care and patience in guiding me to finish this thesis.
3. To dean of the Faculty of Computer Science both Esa Unggul University and Nanjing Xiaozhuang University, to the International Office in Nanjing Xiaozhuang University, and also to all teacher and all examiner both Nanjing Xiaozhuang University and Esa Unggul University, I say many thanks.
4. Mrs. Sophie Mou as the one who always took care of us tirelessly in Nanjing.

5. To 2013th generation Friends in Nanjing and in Jakarta, friends who have a lot of support and providing advice.

The author realizes that there are shortcomings in the writing of this thesis due to time limitations. But the author has tried my best to make the thesis useful for writer and readers. Therefore, the author is expects critics and suggestions from various parties for the perfection of this thesis.

Finally, I hope this thesis can provide benefits and add knowledge for people who read this thesis. And also thank you so much for everyone.

Nanjing, June 2017

Muhammad Fahrizal (武鸿乐)
