## **ABSTRACT**

In this study, the news that will be researched by the author is the penetration news of Menko Polhukam Wiranto on the news portal [mediaindonesia.com](http://mediaindonesia.com) and [republika.co.id](http://republika.co.id). Both media are quite active in reporting cases of stabbing against Wiranto from the beginning of stabbing on Oktober 10, 2019 to leaving the hospital on Oktober 19, 2019, This study aims to find out how framing / framing done by online media [Mediaindonesia.com](http://Mediaindonesia.com) and [Republika.co.id](http://Republika.co.id) against the news of Wiranto's penetration. The research results of the news portal [mediaindonesia.com](http://mediaindonesia.com) and [republika.co.id](http://republika.co.id) the author answered this research using the framing method Robert N. Entman. the author uses this method because it has a correlation to the problem to be investigated. Framing methods Robert N. Entman sees framing in two major dimensions: issue selection and the emphasis or prominence of certain aspects of a reality or issue..
