ABSTRACT

Name / Nim : Siti Amelia Soleh / 20180502010

Title : *The Influence of the @erigostore influencer on buying interest in the erigo brand among youth in the village of Wanakerta RW.05, Tangerang District*

Key Word : *Influencer, Erigo, Youth, Buying Interest*

Influencer is a nickname for someone who has influence and power on social media, it appears along with the advancement of technology and telecommunications. Erigo is a local Indonesian brand that was founded in 2013 and is engaged in all-gender fashion. Muhammad Sadad as the founder takes advantage of the presence of influencers to increase their buying interest in their products. Youths are effective targets in research because they actively use Instagram social media and keep up with the times and the daily activities of Influencers.

What is expected is that Influencers are interested in buying Erigo products among youth in Wanakerta Village, RW.05, Tangerang Regency. Using quantitative so that the final results are systematic based on the data that has been collected and Descriptive Statistics research. The theory of SOR and Mass Communication is the basis in the research with the result that it is known that there is an influence of the @erigostore Influencer on the buying interest of the Erigo brand in the youth of Wanakerta Village, RW 05, Tangerang Regency.
