Lampiran 3 - *Developer Guide*

Menjalankan aplikasi Layanan perjanjian Berbasis Teknologi Blockchain Menggunakan DApp Web-Based project:

1. Buka aplikasi ganache workspace pada desktop
2. Truffle Unbox React pada menu cli.
3. Kemudian compile smartcontract untuk mendapatkan contract address ethereum.
4. Copy contract address pada SimplesStorage.js
5. Jalankan perintah “npm start” pada terminal untuk menjalankan DApp
6. DApp dapat dijalankan di web browser pada <http://localhost:3000/>
7. Import private key pada account address yang ada di ganache ke e-wallet metamask
8. Open IPFS Desktop untuk keperluan sharing data menggunakan CID sebagai key untuk mengakses data tersebut.
