DAFTAR ISI

HALAMAN JUDUL ................................................................. i
LEMBAR PENGESAHAN ....................................................... ii
KATA PENGANTAR ............................................................ iii
DAFTAR ISI ................................................................. v
DAFTAR TABEL ............................................................. ix

BAB I PENDAHULUAN

1.1. Latar Belakang ................................................................. 1
1.2. Tujuan ................................................................. 5
    1.2.1 Tujuan Umum ............................................................. 5
    1.2.2 Tujuan Khusus ............................................................. 5
1.3. Manfaat Magang ............................................................. 6
    1.3.1 Bagi Rumah Sakit Dharmais ........................................ 6
    1.3.2 Bagi Fakultas Kesehatan Masyarakat ................................ 6
    1.3.3 Bagi Mahasiswa ............................................................. 6

BAB II KERANGKA TEORI DAN KONSEP

2.1 Penatalaksanaan Kebakaran ........................................... 7
    2.1.1 Penatalaksanaan Bahaya Kebakaran Rumah Sakit ............ 7
    2.1.2 Bahaya Kebakaran ..................................................... 8
2.2 Pengertian Kebakaran ................................................................. 9
  2.2.1 Teori Segitiga Api ................................................................. 10
  2.2.2 Bidang Empat Api ................................................................. 12
2.3 Pelatihan kebakaran ................................................................. 12
  2.3.1 Tujuan ................................................................................... 15
  2.3.2 Materi .................................................................................. 16
  2.3.3 Metode .................................................................................. 16
2.4 Faktor-Faktor Penyebab Terjadi Kebakaran ............................... 17
  2.4.1 Faktor-Faktor Penyebab Terjadi Kebakaran .............................. 17
  2.4.2 Sumber-Sumber Bahan Bakar ................................................. 21
2.5 Klasifikasi Kebakaran ................................................................. 22
2.6 Klasifikasi Bangunan ................................................................. 24
  2.6.1 Klasifikasi Berdasarkan Tinggi dan Jumlah Lantai..................... 27
  2.6.2 Klasifikasi Berdasarkan Potensi Bahaya ................................... 28
2.7 Sarana Proteksi Aktif Kebakaran ............................................... 29
  2.7.1 Pemeliharaan dan Pemeriksaan Sarana Proteksi Aktif Kebakaran ................................................................. 37
2.8 Sarana Penyelamatan Jiwa ......................................................... 40
2.9. Faktor Resiko Penghuni .............................................................. 44
2.10 Regulasi Terkait Kebakaran ...................................................... 46
2.11 Kerangka Kosep ................................................................. 48
BAB III PROSES MAGANG

3.1 Persiapan ................................................................. 49
3.2 Pelaksanaan ............................................................. 49
3.3 Tahap Akhir ............................................................. 51

BAB IV HASIL MAGANG

4.1 Gambaran Umum RS. Kanker Dharmais ......................... 52
  4.1.1 Sejarah RS Kanker Dharmais ................................. 52
  4.1.2 Profil RS Kanker Dharmais ................................. 53
  4.1.3 Visi, Misi dan Kebijakan Mutu RS Kanker Dharmais ....... 54
  4.1.4 Struktur Organisasi RS Kanker Dharmais ................. 55
  4.1.5 Fasilitas dan Kegiatan RS Kanker Dharmais .............. 56
4.2 Gambaran Unit K3 ...................................................... 57
  4.2.1 Bentuk Unit Yang Menangani K3 ............................ 57
  4.2.2 Visi, Misi dan Tujuan Unit K3 .............................. 57
  4.2.3 Struktur Organisasi Penanggulangan Kebakaran dan kewaspadaan Bencana ......................................................... 58
  4.2.4 Program K3 Yang di Jalankan ............................... 61
4.3 Gambaran Input .......................................................... 62
4.4 Gambaran Proses Penatalaksanaan Pelatihan Kebakaran .......... 71
  4.4.1 Penetapan Tujuan Pelatihan ................................ 72
  4.4.2 Penetapan Peserta Pelatihan ............................... 73
  4.4.3 Penetapan Materi Pelatihan ................................. 74
BAB V PEMBAHASAN

5.1 Penetapan Tujuan Pelatihan ..................................................... 77
5.2 Penetapan Peserta Pelatihan ..................................................... 78
5.3 Penetapan Materi Pelatihan ...................................................... 79
5.4 Penetapan Metode Pelatihan .................................................... 80

BAB VI KESIMPULAN DAN SARAN

6.1 Kesimpulan ................................................................. 82
6.2 Saran ................................................................. 83

DAFTAR PUSTAKA .................................................. 84

LAMPIRAN ............................................................. 85
