

## **ABSTRACT**

*The objective of this study is to examine the influence of Corporate Social Responsibility, firm size, and firm growth towards financial performance of food and beverage companies under the manufacturing sector listed in Indonesia Stock Exchange (IDX) for the period 2010-2013. This study gathers financial and non-financial data from annual and financial reports accessed from IDX website and Indonesian Capital Market Electronic Library (ICaMEL) located in Indonesia Stock Exchange Building. Using statistic method, the result indicates that Corporate Social Responsibility has a significant positive influence towards financial performance. However, the result also shows a negative influence between firm size and firm growth towards financial performance.*
