Maraknya pemberitaan mengenai kasus perilaku seksual pranikah di kalangan remaja mengundang berbagai sikap di kalangan remaja. Ada yang bersikap menyetujui adapula yang menolak, tak terkecuali siswa di SMK X Tangerang. Perbedaan sikap ini diduga dipengaruhi oleh konsep diri. Penelitian ini bertujuan untuk mengetahui hubungan antara konsep diri dengan sikap terhadap perilaku seksual pranikah pada siswa.

Penelitian ini menggunakan metode korelasional non-eksperimental teknik sampel *probability sampling* dengan jenis *proportionate stratified random sampling*. Populasi dalam penelitian adalah semua siswa SMK X Tangerang dengan populasi sejumlah 100 orang.

Skala konsep diri yang digunakan dimodifikasi dari *Tennessee Self-Concept Scale* (TSCS) milik W. H. Fitts dengan reliabilitas (r)=0,963. Sedangkan skala sikap terhadap perilaku seksual pranikah disusun berdasarkan teori sikap milik Secord and Beckman dengan reliabilitas sebesar (r)=0,916.

Data yang diperoleh dianalisis menggunakan teknik korelasi *Pearson Product Moment* diperoleh nilai koefisian korelasi r =-0,310 dan taraf signifikansi 0,002 ($p<0,05$), artinya hipotesis dalam penelitian ini diterima yaitu ada hubungan negatif antara konsep diri dengan sikap terhadap perilaku seksual pranikah SMK X Tangerang.

Kata kunci: konsep diri, sikap terhadap perilaku seksual pranikah, remaja.

TIARA. 2016. Relationship between Self-Concept and Attitudes toward Premarital Sexual Behavior SMK X Tangerang.

(Dibimbing oleh Novendawati Wahyu Sitasari, M. Psi., Psikolog dan Dra. Safitri, M. Si)

The rise of news about the case of premarital sexual behavior among adolescents in various media illustrates that sex before marriage is not unusual anymore among teenagers in Indonesia. These cases have invited various reactions among teens Indonesia, including students in SMK X Tangerang. There are people who can accept premarital sexual behavior, but there are also other people who refuse the behavior. This different attitude allegedly influenced by the concept of self.

This study aims to determine the relationship between self-concept and attitudes toward premarital sexual behavior of SMK X Tangerang students. The study used a non-experimental correlation method with *probability sampling* technique manifold *proportionate stratified random sampling*. Samples were students of class X, XI and class XII SMK X Tangerang with total of 100 people.

Self-concept scale used in this research is modified from Tennessee Self-Concept Scale (TSCS) by W. H. Fitts with reliability (α)=0,963. While the scale of attitudes toward premarital sexual behavior is based on the theory of attitude belongs to Secord and Beckman with the reliability of (α) = 0,916.

Collected data's were analyzed using *Pearson Product Moment* correlation technique resulting in correlation coefficient $r = -0,310$ and significance level of 0.002 ($p <0.05$), which means that the hypothesis is accepted that there is a negative relationship between self-concept and attitudes toward premarital sexual behavior SMK X Tangerang.

Keywords: self-concept, attitudes toward premarital sexual behavior, adolescents.
