

ABSTRACT

ANDITA KATRININGTIAS, *Influence of Capital Adequacy Ratio, Loan To Deposit Ratio, Operational Expense with Operating Income to Profit Growth in Banking Companies Listed In Indonesia Stock Exchange Year 2011-2015 (guided by Mr. Dr. MF Arrozi, Adhikara SE., Ak. , M.Si., CA.,)*

The purpose of this research is to analyze the influence of Capital Adequacy Ratio, Loan To Deposot Ratio, Operational Expense with Operating Income on Profit Growth in Banking Company in 2011-2015. The data in this study were obtained from the Publication Financial Report from www.idx.co.id for each commercial bank in 2011-2015.

The data used is the data of banking companies listed on the Indonesia Stock Exchange (BEI) for 5 years from 2011-2015 as many as 28 companies from a total population of 28 companies. Sampling with saturated sample technique. The type of data is secondary data sourced from the financial statements and annual reports. Data analysis method used is multiple linear regression analysis.

The results of this study show Capital Adquan Ratio, Loan To Deposit Ratio, Operational Expense with Operating Income simultaneously affect the Profit Growth, while partially BOPO do not affect the profit growth, while CAR and LDR significant effect on profit growth.

Keywords: CAR, LDR, BOPO and Profit Growth.
